PROFESSIONAL EXPERIENCE

2018 January –
2021 February

Digileads, Front End Web Developer

In my role, I took on a diverse range of responsibilities that required proficiency in various skills.

These included:

Web Design & WordPress Development:

HTML & CSS:

Graphic/Digital Design:

UI & UX Design:

Server Work (cPanel & KonsoleH):

Website Portfolio

My skill set encompassed a wide array of competencies:

Graphic Design, Cascading Style Sheets (CSS), WordPress, HTML, Visual Design, Motion Graphics, Microsoft Excel, User Interface Design, Email Marketing, HTML Emails, ActiveCampaign, Jira, Elementor, Git, Github, JavaScript

2021 February –
2023 January
Johannesburg,
South Africa

GotBot, Intermediate Software Developer ✉

Mentoring and training junior developers is a core aspect of my role. I am deeply committed to guiding the next generation of developers, sharing knowledge, and fostering a culture of innovation and continuous learning within the team.

By empowering others, I contribute to the growth of both individuals and the organization as a whole.

In addition to my mentorship capabilities, my expertise spans a comprehensive array of skills, particularly in software and chatbot development, reflecting my versatility and depth in the tech domain:

Development Skills:

- **Programming Languages & Frameworks:** Proficient in JavaScript (Vanilla JavaScript), React.js, React Native, Next.js, Vue.js, HTML, CSS, and Tailwind.css. My experience includes building interactive and user-friendly applications across web and mobile platforms.
- **Chatbot Development:** Extensive experience in developing conversational AI solutions using tools such as **Google DialogFlow**, **ChatGPT**, and **Google Bard**. Skilled in designing natural language processing workflows, integrating chatbots with APIs, and enhancing user engagement through intelligent automation.
- **Cloud & DevOps:** Skilled in AWS services, including AWS Console, AWS API Gateway, and AWS K9S. Experienced in containerization with Docker and working with distributed systems such as OpenSearch and RabbitMQ.
- **API Development:** Expertise in building and consuming RESTful APIs to enable seamless communication between systems.
- **Tools & Platforms:** Proficient in using Android Studio, Visual Studio Code and Postman. Familiar with GitHub and Git for version control.
- **Collaboration & Project Management:** Strong background in tools like Jira, Slack, Confluence and Infobip for team collaboration and task management.
- **Data Management & State Handling:** Experience with Firebase and Redux for efficient data storage and state management in applications.
- **Bug Tracking & Quality Assurance:** Adept at identifying and resolving bugs to ensure robust software solutions.

With this broad skill set, I not only contribute to developing cutting-edge software and chatbot solutions but also ensure their scalability, efficiency, and alignment with user needs.

My passion for innovation and teamwork drives me to continuously enhance my capabilities and empower those I work with.

Fluff Software, Senior Software Developer ✉

As a Senior Full Stack Software Developer at Fluff.software ✉, I am dedicated to delivering cutting-edge solutions that address complex challenges and exceed expectations.

With a strong focus on innovation, collaboration, and adaptability, I leverage my technical expertise to design and implement impactful applications that drive business success.

My approach emphasizes continuous improvement, both in the quality of the solutions I build and in fostering a culture of learning and growth within the team.

Core Proficiencies

With a well-rounded and extensive skill set, I bring a wealth of experience in full stack development, cloud computing, and team collaboration to every project:

Frontend Development

- Proficient in modern frameworks and libraries, including **React.js**, **React Native**, **Next.js**, and **Vue.js**
- Expertise in **JavaScript** (Vanilla JavaScript), **HTML**, **CSS**, and **Tailwind CSS** for building responsive and dynamic user interfaces
- Skilled in **Responsive UI/UX Design** to deliver seamless, user-friendly experiences across devices

Backend Development

- Extensive experience in building and maintaining **RESTful APIs**
- Proficient in integrating backend services with tools like **AWS API Gateway**, **Open Search**, **GraphQL** and **RabbitMQ**
- Expertise in containerization and orchestration using **Docker**

Cloud & DevOps

- Hands-on experience with **AWS Console**, **AWS Amplify**, **AWS Cognito**, and other cloud solutions
- Skilled in serverless architecture and real-time databases like **Firebase**
- Strong focus on scalable, secure, and reliable cloud deployments

Tooling & Collaboration

- Proficient in development tools such as **Visual Studio Code**, **Cursor** and API testing with **Postman**
- Experienced in project management and team communication using **Jira**, **Slack**, **Confluence**, **Notion**, and **Gather**
- Version control expertise with **GitHub** and **Git**, and time management tools like **Clockify**

Testing & Debugging

- Adept at troubleshooting and resolving complex issues through **Bug Chasing**
- Proficient in mobile app testing using **Android Studio**

Approach to Development and Leadership

I am committed to delivering solutions that not only meet technical requirements but also align with business objectives and user needs. My approach emphasizes:

- **Collaboration:** Encouraging open communication and teamwork to achieve project goals efficiently.
- **Continuous Learning:** Staying updated with the latest technologies and best practices to maintain a competitive edge.
- **Mentorship:** Providing guidance and sharing knowledge to enhance the team's collective expertise.
- **Quality Focus:** Prioritizing robust, scalable, and maintainable code to ensure long-term success.

By combining technical excellence with a focus on team dynamics, I strive to build solutions that make a meaningful impact and foster an environment where everyone can thrive.
